MEDLYN – SELLING STUD SIRES FOR 30 YEARS

Helping consumer to make the right choice

BRED 2 PERFORM

- 1) MN3 herd
- 2) Pestivirus tested free & blooded - all sale animals
- 3) Vaccinated with 7 in 1
- 4) Raised under commercial conditions on the coast, dryland farming & cropping with high humidity & high stocking rates
- 5) Established with females from Don Moyle at The Basin at Keith SA, the temperament, structural correctness & fertility of these females is still apparent within our herd
- 6) Docile
- 7) Pedigree traceability—2015 heaviest (350kg) weaners at 8 months (both male & female) can be traced back to the same foundation cow
- 8) When selecting a stud sire the following EBV's are considered
 - a) Height of bull (60") to ensure growth to serve the european x bos indicus females
 - b) Birth weight for calving ease
 - c) High positive ebv's for both eye muscle area & retail beef yield are important for resulting increased profitability
- 9) Aim is to produce an animal that will meet the customer's criteria for any market ie 200day, 400day, 600day turnoff
- 10) We have been submitting performance figures on our herd since 1984
- 11) Females within our herd produce even lines of progeny
- 12) Successes include several wins at the EKKA, including clients winning in carcass classes

ABOUT INGLEBRAE FARMS ANGUS

Darren Battistuzzi
Inglebrae Farms
Angus Stud
Mobile: 0407 023 062

Welcome to Inglebrae Farms Angus.

For the past eight years we have sold our bulls under private treaty paddock sales, and also the last two years selling a few extra at the Toowoomba Ag show. With 100% clearance. But this year we are hoping to give our existing and potential new clients better access to our bulls by having them in the one place and at the one sale.

To maximise buyer's selection we have joined with Medlyn Angus to create a greater diversity of choice to hopefully meet the needs of your herd.

At Inglebrae we have a real commercial focus, running over 700 breeders with 80 of these being stud cows that are run in the same way as our commercial breeders.

Inglebrae sale bulls have been prepared and presented for you coming off oats, rye and turnip crops with access to silage and a looselick mineral (no grain) and **are ready for work.**

There are three lines of bulls in the Inglebrae line-up. Sons of 'Bando 9074' (through AI program), 'Sara Park Fleetwood F5', which was purchased from the respected Duddy family in Glen Innes in 2012 and also 'Booroomooka Neutron D314', which was purchased from the 2010 record breaking sale at Booroomooka.

The health treatments have the bulls fit and ready to work with them receiving: 7 in 1, Cydectin (pour on), Vibrio, and 3 day sickness.

The bulls are also **semen morphology tested** with results on the raw data sheet.

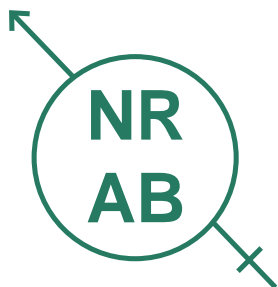

We highly recommend that you keep your bulls up to date with their vaccinations that we have started for the health and longevity of your purchase. Also keep your younger bulls separated from your older bulls, allowing them to recover and grow out after their first season of working for you.

We always look forward to feedback on our bulls; it's good to know how they are performing. And thank you for the confidence that you have put in Inglebrae Farms Angus to provide **sound, soft, easy doing bulls** that are **BRED TUFF** for you.

Thankyou manager

Darren Battistuzzi
