Welcome to the 2018 Medlyn Angus Sale

A single bull's genetic influence has the potential to significantly impact the future direction of your herd. Selection indexes calculated for angus bulls reflect both the short term profit generated directly through sale of progeny & a longer term profit generated by daughters in a self-replacing cow herd.

Like "Billy Tea" our bulls speak for themselves being docile & with pedigree traceability. High positive EBV'S for eye muscle & retail beef yield are important for increased carcass yield. The Medlyn Herd is born & raised under commercial conditions on the coast, on a dryland farming & cropping operation with high humidity & high stocking rates. We aim to produce an animal that will satisfy our clients specific market be it 200 day, 400 day or 600 day turnoff.

The combination of genetics over the last 30 Plus years of breeding have led us to use the following list of sires;

- 1) Cheryton Stewie WLHD19; an outcross carcass sire to all other mainstream sires, he has the ability to produce high marbling progeny with added body length, extra width, sound feet & legs, desirable growth, positive fats & high% imf. His calves are born thick.
- 2) Aberdeen Estate Just Right AHWJ6; a maternal brother to NAQA241 & being sired by TC Aberdeen 759, he was purchased as a yearling from the Aberdeen Estate Dispersal. His genetics show him to be above average for all indexes & he has only been used within our herd. His sons topped our 2017 sale.
- 3) RB Tour of Duty USA16984170; showcases exceptional length, dimension, soundness & bone. His progeny exhibit growth, style & frame. Feed efficiency figures very good
- 4) Sydgen Black Pearl 2006 USA17236055; he is a larger framed, long bodied docile bull with soundness of movement & structure. He has trait leader status in Calving Ease, 600D and importantly EMA.
- 5) Coonamble Elevator WDCE11; he is the highest 400 day & 600 day combination bull in the angus breed & combines two of the most influential "cow"

families in the Australian angus breed; "Rosebud" & "Wilcoola". He is a big powerfull framed bull. Progeny are born thick, superb structure are very quiet with high growth & weight gains. He is a trait leader for 200D, 400D & 600D wt & also cwt.

- 6) VAR Reserve 1111 USA16916944; This sire is lower in birth weight, a moderate bull exhibiting plenty of rib & muscle. This combination offers great mating flexibility. His figures indicate he ranks in top 10% total profit index, top 2% efficiency index, top 1% feed intake EPD, top 2% maternal index
- 7) PA Powertool 9108 USA16381311; emphasises a birth to yearling spread with marbling & docility. He has calving ease plus growth & carcass numbers. Good feed efficiency figures & a leader for milk
- 8) Deer Valley All In USA17307074; This bull combines genetics of Mytty In Focus & Sitz Upwards 307R (dam side). He is a trait leader for 200d, 400d & 600d growth & carcass weight with very high heritability percentages for these traits. He presents calving ease, growth with his dam a leader for marbling.
- 9) Te Mania Emperor VTME343; ranks in top 10% for 13 traits including calving ease & short gestation length, allowing him to be mated to heifers. Strong positive EBV's for structure, phenotype & docility. Calves are born thick.
- 10) SAV Iron Mountain 8066 USA16115617; This sire displays higher than the national herd average in all four of the \$ Index traits, combined with low gestation length & high 600d wt, has high carcass wt & EMA. He displays low figures for both feed efficiency indexes, NFI-P (post weaning) & NFI-F (feedlot). He should produce progeny that eat less relative to their weight & rate of weight gain.

**Medlyn Angus – bred to perform – helping buyers
make the right choice**

John, Ellen & Rodney Gibson

Sale Information

DIRECTIONS

Primex Selling Complex, Casino NSW.

HEALTH

All bulls have been vaccinated with 3 Germ and for 3-Day.

GST

GST is to be added onto the purchase price at the fall of the auctioneer's hammer. You will be invoiced purchased price plus GST.

REBATE

2% rebate to outside Agents introducing buyers in writing 24 hours prior to the Sale and settling on their behalf within 7 days.

INSPECTION

Bulls may be inspected prior to the Sale by contacting vendors or selling agents. Cattle will be available for inspection from 9am on sale day.

INSURANCE

We recommend bulls are insured against injury and death.

REFRESHMENTS

Refreshments will be available at the sale.

DISCLAIMER

The vendors, agents and their representatives accept no liability for accidents that may occur to any person attending the sale. Visitors enter the cattle pens at their own risk. Children must not enter the yards. While all care has been taken in the preparation of this sale catalogue, vendors and agents accepts no responsibility for any errors or omissions contained in this publication.

+\$110	+\$105	+\$113	+\$108

ARRIVAL OF BULLS

When the bull or bulls arrive home, unload them at the yards into a group of house cows, steers or herd cows. Never jump them from the back of a truck directly into a paddock—it may be the last time you see them. Bulls from different origins should be put into separate yards with other cattle for company. Provide hay and water, then leave them alone until the next morning.

MATING NEW YOUNG BULLS

Newly purchased young bulls should not be placed with older herd bulls for multiple-sire joining. The older, dominant bull will not allow the young bulls to work, and will knock them around while keeping them away from the cows.

Use new bulls in either single-sire groups or with young bulls their own age. If a number of young bulls are to be used together, run them together for a few weeks before joining starts. They sort out their pecking order quickly and have few problems later. When the young bulls are working, inspect them regularly and closely.
